WASHINGTON, June 25,—(P)—
House and senate banking leaders were definitely and openly at odds tonight over the proposed year's extension of the present temporary bank deposit insurance.

Assurances by Senator Glass, democrat, Virginia, that the administration banking bill with its centralized credit control would not be delayed, prompted swift senate approval of the separate extension resolution.

Unless the house takes similar action this week, permanent provisions of the law raising the 100 per cent guaranty from \$5,000 to \$10,000 and lifting limits on the liability of insured banks will become effective next Monday.

The body was discovered by Moses Barber, of 600 Carroll street, as he was walking through the clump of woods near the Rose Bowl. He reported to police and officers identified Mr. Barron by papers in his pockets.

Mr. Barron was last seen at his office at 9:30 o'clock Monday morning. He complained then of feeling ill and left, apparently, for his home. The body was found in a bed of leaves and it bore no marks of violence. The spot where it was discovered is some distance from the street or a path. Doctors said he had been dead about 24 hours when found.

WASHINGTON, June 25.—(P)—

Mashington, June 25.—(P)—

New cash bonus payment plan was shaped today on Capitol Hill with the idea that it might be laid across the path of the new tax bill in the house.

Representative Patman, democrat, are to the senate for confirmation.

WASHINGTON, June 25.—(P)—

Harry L. Hopkins today was given the final say on where and how much shall be spent of \$249,000,000 carmarked by President Roosevelt for Secretary Ickes' slum clearance plans.

This disclosure by Ickes himself that the lanky relief expert had been pushed into new prominence in the \$4,000,000,000 oon gignally intended for \$4,000,000,000 oon gignally intended for work.

Mr. Roosevelt submitted Hopkins' More Roosevelt submitted Hopkins' have to the senate for confirmation.

They recalled that \$100,000,000 had been allotted for road construction al-

days.

A group of veterans who called on Senator Thomas, democrat, Oklahoma, today were told by him that he would present the plan to the senate when it was completed. He did not favor a plan, however, to limit the payment of the bonus to needy veterans, which he said would virtually require them to "take a pauper's oath" to obtain payment.

he submitted 24 more projects in 21 would be spent for low cost housing but Ickes said today the \$249,000,000 of projects "exhausted" the list of those available for speedy construction.

If there is nor "undue difficulty" in acquiring land, Ickes said, all of this sum can be used "during 1936." The conformity with the requirement in the work-relief law that officials receiving more than \$5,000 must be constitutions.

payment.

The plan being put into shape is patterned in part after an inflationary amendment which Thomas originally attached to the Agricultural Adjustment Administration measure in the early days of the Roosevelt adminimation.

"The President signed that bill, and Tree President signed that bill, and therefore has given tacit approval to that principle of issuing money and retiring it gradually," Patman said.

Sentiment was divided over the prospects for putting the new bonus and through at this session some stated Fred and Al Keys, brothers, and applicants, including one with 36 applicants, including one plan through at this session. Some members felt that the President had definitely killed the bonus for this session of congress when he vetoed the original measure and the senate up-

## MOTORIST HITS MAN IN DODGING TROLLEY

A motorist was charged with reckless driving yesterday as the result of an accident in which he attempted to dodge a switching street car and struck and injured D. V. Fanning, op-erator of a truck parked at the scene on Bankhead avenue. Fanning was taken to Grady hospital where it was found he had suffered a fractured leg. Fanning had parked his truck and was standing back of it when struck, according to police report, by an automobile driven by R. R. Stanford, of 1228 Bankhead avenue. Stanford told police he was forced to awerve his automobile into Fanning in order to dodge a trolley switching into his path.
W. J. Smith, operator of the trolley, told police he was switching from one track to the other at the end of the line. Stanford was charged with reck less driving.

Farm administration officials said today they were looking toward, a continued rise in meat prices until fall and there was little they could do about it. As a barometer of future meat prices, AAA officials said they were looking to the spring pig farrowing crop report due Friday.

Senator Smith said "the high meat prices are the natural result of two factors; first, the artificial or government destruction of farrowing sows and immature pigs; second, the extreme drouth of 1934 that cut off the food supply necessary to support pattle, hogs and sheep that survived.

"The prices will continue to rise unless the consumers buck up their sales resistance through a consumers' strike, or their inability to buy meat."

Tests prove this new alloyed oil has 2 to 4 times greater film strength than plain mineral oils and resists heat better!

On July 4th or week-end and vacation trips, you'll want to drive far and get there in a hurry. And you don't want that nagging worry of "I wonder if this speed and heat will hurt anything in my motor."

You can't always be sure when you use plain mineral oils, for they have little film strength and oils over-refined by new cleansing processes have even less. Moreover, as motor heat goes up, these oils rapidly lose film strength. Film strength is the load-carrying

ability of an oil, the quality that keeps bearings and cylinders from wearing out. Lack of film strength results in costly damage.

You can drive without a worry when you use Conoco Germ Processed Motor Oil! It has 2 to 4 times greater film strength than any plain mineral oil. Heat does not lessen this advantage.\*

On the contrary, the department respects and commends the ability and integrity with which they discharged their duties and responsibilities. So long as these officials were in control, there was fine co-operation and no conflict between this department and the state highway department. I am confident that had they remained in office the present situation would never have arisen and would not now exist. Since the state highway board has been composed of its present membership, it seems that every major advised the state of the work and by the chief engineer.

# News Behind the News

POLITICS WASHINGTON, June 25.—If you get President Roosevelt's political brain trusters off in a corner, they will readily confess his wealth-tax program is one of the smartest moves he ever made. They explain the generalship behind it this way:

The only real political danger presses President Roosevelt from the left (not controlled).

the left (not only Long, Coughlin and Townsend, but the following they represent). His strategy must continue to draw wind from their sails. His move will becalm them for '36; they must ride or

He need not consider the conservative democrats. They have no place to go except where he can take them. (The strict primary laws in the south are regarded as a protection against an independent movement.)

As for the republicans, he would like to pass them as far right as possible, thus making them lose the Borah, Nye, La Follette, Nor-

Note-These views are not shared by all politicians, outside the Roosevelt entourage. In the first place, some disagree as to the extent of the danger from the left. Improved business conditions might keep down any formidable movement from that end.

If better business will elect Mr. Roosevelt, the proposed tax against corporate bigness will not contribute to that end.

ECONOMICS Nearly all insiders agree the move was economically doubtful. No politician will care to defend vast wealth these days, at least not publicly. Yet most agree that wealth is a builder. That it pioneered the development of the country. Not the Astor type of wealth, which came from real estate speculation; but the Harriman and Hill type, which built the railroads; the Ford type, which built the automobile; the Radio City of Rockefeller. What influence will take the economic place of wealth

The answer to that probably is that the tax pudding will not be eaten as hot as it is cooked. Wealth has always found a way to

NOTE Roosevelt's pals now say his wealth-tax idea has been in his mind for many years. He wanted to make a speech on it in the '32 campaign but was talked out of it by his political A relief message he sent to the legislature while he was Governor of New York contained some of the same theories.

MUSCLE. Old-time politicians like to say that contributions are the sinews of war. If so, you can get a good squint at the muscular development of democrats and republicans by looking into their last financial statements. These show the democrats collected roughly 60 times as much as the republicans during March, April and May (democrats \$187,061; republicans \$3,305).

The pay roll at democratic headquarters is \$3,000 a week, which is almost as much as the republicans collected in three months. The democratic contribution list is full of large donations (\$1,000 to \$10,000 each), but the republicans must have been obbing their children's banks. Their gifts include such items as \$3.64; \$6.25; \$3.89.

MORTGAGES The democrats are muscle-bound with a lot of debt (\$441,976), while the republicans owe only \$14.086. The Raskob mortgage was reduced \$10,000 last quarter, but the Rooseveltites still owe him \$45,000. Next largest credit is none other than Joseph Kennedy, chairman of the Securities and

Exchange Commission. He is owed \$35,376. The news in these figures is that the new treasurer, Forbes Morgan, is making good, but the committee is spending money so fast that the debts are being paid slowly.

REFUND You may not believe it, but the democrats have actually rejected a campaign contribution. No announcement was made about it, but a check for \$1,000 was returned to Harry M. Warner, the movie man. It seems that the check arrived just about the time that Mr. Warner's firm was indicted by the Justice Department for violation of anti-trust laws. Mr. Warner was a leading contributor in the '32 campaign.

ANEMIA What our diplomats see in the London-Berlin naval agreement is the ultimate death of the League of Na-Japan and Germany have deserted. Italy is threatening to. Now John Bull has turned from the original League idea of multilateral agreements to the old pre-war idea of bilateral pacts.

The League serves as a children's court in international affairs. It settles minor border disputes among small nations, but it is too weak to handle the adult powers.

BALANCE The travels of Captain Anthony Eden to Paris and Rome are in accord with England's traditional policy. Her game has always been to play first with one side and then with the other on the continent, thus maintaining herself as a balance of power and preventing any continental nation from getting too Now that she has made a naval agreement with Germany, she will sidle up to the French and Italians. Our diplomats are only casually interested. (Copyright, 1935, by Paul Mallon.)

# FAIR ENOUGH

By WESTBROOK PEGLER

NEW YORK, June 25.-Justice. feel sorry for Huey Long,

dealer. The quality of Huey's share the wealth was variable, too. Some-times it was \$2,500 a year and a hous-and cow and flivver that he offered.

Other batches were enriched with a cash bonus of \$5,000 or \$10,000.
Mr. Roosevelt will hit upon a standard formula and bring to the share the wealth business the prestige of the na-tional government, and an organiza-tion which is incomparably stronger than Huey's widely scattered groups of neighbors. They joined Huey by the informal process of signing a cou-pon and sending it in, and his hold on them hasn't been very strong. 'Come On' Mr. Roosevelt

Whether e elects to fight it out against overwhelming odds or accept the best offer he can get from the chain the result seems certain. The little independent ever wins.
Still, Huey might have stood a

gun in front of his hotel in Baton Rouge every time a stenographer pop-ped a wad of gum. The machine gun was not pointed at J. P. Morgan, Barney Baruch or Vincent Astor, but at ordinary laborers, clerks and small merchants. They belonged to the very class of which he professed to be the only friend. As a demonstration of altruism toward these people the machine gun squatting on its iron legs was somehow lacking in warmth. was somehow lacking in warmth. It wasn't bright to fire half a dozen

students of his state university for publishing in their paper a letter mildy objecting to his assumption of per-sonal authority over the school. And it certainly was not smart to holler that night in the presence of so many witnesses that he would fire any dirty little illegitimate offspring-up to a thousand, if necessary—who dared ut-ter a word against Huey Long.

Private
His practice of appointing himself speMisgivings. cial counsel to the Misgivings. cial counsel to the state in various legal matters and special tax ferret on a commission basis suggested that in his share the wealth program Huey Long was to receive the first and biggest share. Even his most devoted believers must have toyed with private misgivings in the night as they thought of his enormous personal fees, awarded to himself by himself, while he was howling against the distribution of some souvenir stamps among the personal circle of Mr. Farley.

Altogether, as one who wished to endear himself to the forgotten man Huey was guilty of repeated errors.

Huey was guilty of repeated errors.
He started right out to uplift the lowly at the point of a musket and he wanted the biggest share of the wealth years before the general distribution.

Justice. feel sorry for Huey Long, but any small dealer who builds up a good trade only to be crushed by a big and powerful chain system naturally excites sympathy. Mr. Long was going ahead very nicely, having started with nothing but a fuzzy idea. His wasn't a general store. All he had to offer was share the wealth brewed in a kettle in the back room, but it was a popular line, drawing customers who were unable to find it anywhere else.

Now Mr. Roosevelt has added his great, miscellaneous stock of benefits and revenges on his shelves and the future looks dark for the independent dealer. The quality of Huey's share the wealth was variable, too. Sometimes it was \$2,500 a year and a house and cow and fliver that he offered.

Man Who Fled From Leavenworth in 1919 Behind U. S. Bars Again.

WASHINGTON, June 25 .- (AP)-After 16 years of freedom, Fred C.

After 16 years of freedom, Fred C. Smith—who fled from Leavenworth on St. Patrick's Day, 1919—is behind federal bars again, ending a "G-man" hunt that extended to the Hawaiian islands, California and Texas.

Officials said Smith was a trusty in the warden's barns when he escaped, starting a career that took him into the navy and on to commercial vessels as a chief engineer. He was captured in a sailors' home at Staten Island, New York.

Director J. Edgar Hoover, of the Director J. Edgar Hoover, of the

Although he had a 15-year start, Justice agents learned Smith's father, a physician, formerly lived in a small California city and that Smith had returned in 1930 to find his father gone. They also learned Smith's true name was Oliver Wendell Ruddock and that he had enlisted in the navy at Dallas, Texas, as Fred Charlton Jones in 1919, shortly after his prison break. He deserted the following September. Following this lead, the agents found Smith in Sailors' Snug harbor at Stat-

Valley Suffer Losses, Survey Reveals.

WASHINGTON, June 25 .- (A)-Spring floods took a crop toll in ven Mississippi valley states.

The Farm Administration, surveying damages from swollen rivers, said 123 counties suffered in Missouri, Arkansas, Colorado, Illinois and Kansas, not to mention heavy destruction in Oklahoma and Nebraska for which country reports were unavailable.

In Missouri, the AAA report said,
19 per cent of the wheat crop and 9
per cent of the corn was lost.

Arkansas was estimated to have

other crops.

The announcement said flood damage could not be compared with the severity of the 1934 drouth. In Madison county, Illinois, for example, the AAA said, 1,000 acres of wheat were destroyed by high water, but flood damage for the entire county was only 10 per cent. Friendly Counsel By CAROLINE CHATFIELD Problems of general interest submitted by readers will be discussed in this column. Correspondence invited. Your name held in confidence. Write Miss Charfield, care The Atlanta Constitution.

Dear Miss Chatfield:

I am a middle-aged widow trying to decide a very perplexing problem. My son who is 24 years old hasn't a regular job and when he works the pay is small. We have a place that we call home but it is very shoddy since we are poor and cannot afford to improve it. My son doesn't care for the girls and I doubt if he will ever get married. A man who lives in a distant state wants me to marry him and this seems a sensible thing to do yet when I think of leaving my boy to get along the best he can, breaking up the home that we have together I hesitate. What is my duty?

WIDOWED MOTHER. Dear Miss Chatfield:

BLOUSE QUICKLY KNITTED.

And added to all this is the fact that the blouse is not only very dressy but the louse is not only very dressy but have a heaven-sem you have a heaven-sem —a bit of knitting to be producted.

And added to all this is the fact that the blouse is not only very dressy but comfortable too. Big needles—open stitches insure your getting the blouse done in record time. A plain knitted skirt is most effective with it; directions for this are included.

In pattern 5323 you will find comfort be a plain knitted and a home for her old age she should grab it and feel that she is doing her boy a great service.

It is very difficult for a mother to comprehend the fact that she can ever be a millstone about the neck of an adored son, yet she frequently is, and particularly is this true when is, and particularly is this true when they are poverty poor. A struggling young man can't take care of his mother, keep up an establishment for her and finance a social life for himself in addition. Most girls expect the boy-friend to put up something in the way of entertainment beyond a talking date. Movies, dinners, dances, picnics and week-end parties take cash. Belonging to a crowd involves a man in no end of expense. He can't ride in another fellow's car without offering to huy the esseling occasionally. He other fellow's car without offering to buy the gasoline occasionally. He can't go on the week-end parties without contributing his part of the cost. If he hasn't the money for these things he has to withdraw from the crowd that is having the gay good time. Even one girl friend is a luxury he can bardly afford. But for his obligation to his mother he could manage on a small scale at least.

Dear Miss Chatfield: I have always thought a row with a neighbor common and disgusting but unless all signs fail I am going to have one. My next door neighbor's dog tears up my flower bed on an average of once a week. I told her about it and she hasn't yet confined the dog at night as I suggested. What is to be done further?

Answer:

Naturally you feel outdone but you can have the matter out with the neighbor without having a row. It takes two to make one, you know. Suppose you call her over to see the damage the next time it happens and instead of suggesting a remedy, let her suggest it. Some people feel about their dogs as they do about their children; they resent any intimation that they are not perfect and believe nothing except what they see of any misbehavior. # Attractive Visitor Arrives Tomorrow To Be Guest of Mrs. Baxter Maddox

By Sally Forth.

As Grace Bixler, the lovely visitor will be pleasantly remembered for she visited Mrs. Maddox when the latter was Jeannette Bailey. They were classmates during school days at the fashionable Gardner school in New York. When Grace visited here she was wined and dined

Albert H. Bailey, and her sister, Beverly, have planned a wonderful trip to the west coast. Leaving the middle of July, they will tour the western seaboard, re-turning by way of Lake Louise

and the Canadian Rockies. Other vacation plans of popular Atlantans include a trip to Daytona Beach, Fla., by a group which each year selects some spot to vacation together. Last year it was Sea Island Beach. This time it is the Daytona Inn at Daytona. Assured of a good time because of their congeniality, the party includes Virginia Courts, Mary Wellborn, Mr. and Mrs. William Well-born and their small daughter, Mrs. Walter Wellborn, Mrs. Francis Gilbert, Mr. and Mrs. George Rowan, of Jacksonville, Ala.; Sam Weyman and Linton Hopkins, Mr. and Mrs. Rowan, who are parents of Mrs. William Wellborn, arrive tomorrow evening and will be with their daughter and son at their home on Juniper street un-

til they leave for Florida. Their visit will be augmented, of course, by all the diver-sions found only at the seashore and also by the fact that there will be another group of former Atlantans there. In a cottage for the month will be Mr. and Mrs. Arthur Rylander, of Americus, and Mr. and Mrs. Emile Zimmer, of Charlotte, N. C. Mrs. Rylander was Cornelle Torrance, you know, and Mrs. Zim-mer is the former Virginia Torrance, whose marriage took place last fall. Their brother, Cobb, will spend a fortnight at the cot-

RUMOR can be an insidious things when not true. And Sally is hopping, along with a lot of other people, that a current report in smart circles is entirely

without foundation But it is so insistent-this rumor that concerns a trio of so-ciety's most popular members. The husband of a charming young matron, it seems, has picked up bag and baggage and left her and

The cause of his withdrawal, of course, is the third side of the triangle. In this instance, she is an equally attractive person, the wife of another prominent Atlan-tan. There are no children in her family to cause further entanglements. But society presumes that both families will soon be embroiled in divorce proceedings.

It's a great pity, too, for At-lanta has pinned such faith on the stability of the two couples. They are what one calls the "topdrawer set"-and it all comes as somewhat of a shock.

HARDLY had Sally welcomed Lila and Bill Campbell to Atlanta when she was called upon to bid au revoir to these popular people. They were ensconced in their attractive Eleventh street apartment just a little over a month, when orders came to

The lighting scheme over the ring is different. There are being the bases and Pat Malone was called in from the bullpen to replace Allen. The former National league pitcher gave three straight balls to Eddie Phillips, put over a strike, and then tossed the fourth ball, walking Phillips and foreing in the deciding tally. Previously Berger had put the Tribe back in running when he drove out a homer in the seventh with Hale on the basepaths.

The lighting scheme over the ring is different. There are great reflectors, so thick that they seem to be like Gargantuan openings in a huge hornets' nest.

The writers begin to come in. This fight has attracted the largest press section since Jack Dempsey met Luis Firpo here more than a decade ago.

There is a miasma of gossip. You can hear anything about this fight. You can hear that it is in the bag for Carnera and that it is in the bag for Louis. You can hear there will be riots. You hear it will be a great fight such as the Dempsey-Firpo Luis Firpo here more than a decade ago.

Scalpers are getting \$100 for the ringside seats. There is lots of loose money for this fight. And the reason 60,000 people will jam the place is because they expect to see a fight. They are paying for a look at blood and knockdowns. The prospect of that sight always packs the stands, especially when the heavyweights are to unlimber their guns. the heavyweights are to unlimber their guns.

The stadium is quite a picture. Its three steel tiers of seats tower more than 100 feet in the air and we are gathered at the bottom about the ring which is pitched about where second base is placed.

Seventy-five American flags float about the rim of the stadium and behind them are great fleecy clouds, still catching the sun which can't be seen down here in the cavernous depths.

# LET'S LOOK AROUND.

L. F. Montgomery, of the Atlanta Coca-Cola Bottling Company, is here for the fight. He is in a ringside seat, close

Dizzy Dean is across the ring.

The Cardinals were over at Brooklyn today. General Hugh Johnson, of Blue Eagle fame, is here also.

He has been offerd a job by the New York city administration. The usual crowd of celebrities, Jack Dempsey and Hannah Williams; various stage and movies beauties, all are in the ringside seats. Among them are Ruth Etting, Mayor Kelley, of Chicago; George F. Getz, who was associated with Tex Rickard in the second Tunney-Dempsey fight; Edward P. Mulrooney, head of the Alcoholic Control Board of New York; James I. Bush, the financier, one of the original 600 millionaires of the garden; Colonel John Reed Kilpatrick, who got his early schooling at Chattanoga, Tenn., and who now heads the garden; Charles Francis (Socker) Coe, writer of underworld yarns; Bob Davis, who covered the Fitzsimmons-Corbett fight at Carson City 33 years ago; Joe E. Woodruff, of Chicago; Bill Cunnningham, of the Boston Post; Harry Smith and Pat Frayne, from San Francisco, and writers from Philadelphia, Minneapolis and dozens of other cities over the United States are represented.

There was a tremendous booing from the bleachers. The subject was Max Baer, the late champion who lost his title to James J. Braddock just two weeks ago. He was clad in a fawn-colored ensemble and he grinned off the boos.

"Who'll win?" a reporter asked him. "Gee, I wouldn't know," he said. Losing the title seemingly hasn't hurt his feelings a bit.

Shooting a two-under-par 70 over the Gullane course to add to yester-day's 71 scored at Muirfield, where the day's 71 scored at Muirfield, where the championship proper starts tomorrow, England's champion justified 4-to-1 odds placed against him by wary bookmarkers. The 27-qear-old Burton's successive rounds of 70-71, the former made at Muirfield yesterday for a new course record, permitted him to share the huzzahs with Cotton temporarily, but few experts considered him a serious contender.

U. S. Stars Are "In." The six-man delegation from the United States qualified intact. The veteran MacDonald Smith, born in carnoustie 45 years ago, finished in a tie for third place with Jack Busson, a young British Ryder cup team hopeful. They were a stroke off the race at 142. Smith, whose record-equaling 66 over Gullane yesterday set the pace, approused before the start of today's

against Frankie Parker, winning the last set at love, Grant tossed it off with another modest, "I was lucky. It was really pretty close at that. . No, I didn't win any love games in that last set." The amazing Bitsy Grant seemed to get more of a kick out of being guest of the Chicago White Sox on Monday afternoon than he did in win-ning his third clay courts title.

"I sat right down there with the boys," he said, "and got a chance to see Luke Appling play at close range. Say, he is some ball player.

"I stayed over a day so I could see the White Sox and Appling play. I got a big kick out of being their guest."

# HICKS ADVANCES TO SECOND ROUND

The final score was 9-3, but it is not at all indicative of the ball game, which was tied at 3-3 going into the 8th. The Crackers played along, waiting for their big inning. It seemed for a long while that there wasn't going to be any. Then White cracked after two well placed bunts by Johnny Hill and Alex Hooks, lefthanded hitters, went safe.

From then on, White was a punching bag and the Crackers were up there swinging.

ABE BLOWS.

It must be said in credit to White, an Atlanta boy, that he pitched swell ball for five innings after relieving Lou McEvoy with two out in the second and the Crackers ahead 3-0. The Barons tied it up for him in the fourth and fifth and White, with the responsibility for winning or losing on his shoulders, battled hard with Schmidt for the decision, only to lose out when the Crackers unleashed the fusillade.

Schmidt pitched a fairly steady game, scattering eight hits, for his 7th win of the season. Every Cracker in the lineup, including Schmidt, got a hit in the game—nine coming in the eighth.

YANKEE STADIUM. NEW YORK, N. Y., June 25.—Shuffling Joe Louis, just 21 years away from a sharecropper's farm at Lexington, Ala., tonight knocked out giant Primo Carnera at the end of 2 minutes and 32 seconds of the sixth round of their heavyweight fight.

WASHINGTON, June 25.—(P) —
The University of Michigan romped off with most of the prizes in the National Intercollegiate Golf tournament here today, easily winning the team championship while two of their sharpshooters tied with a southerner for individual medal honors.

The Wolverines, with a four-man total of 696, were hardly challenged as they drove to their second successive team championship. In addition Charles Yocsis and Woodrow Malloy, of Michigan, were deadlocked with Lewis Johnson Jr., of Charleston (S. C.) College, for individual low score during the two-day 36-hole qualifying test with cards of 148, four strokes above the Congressional course's par for the route.

Another Malloy, Jack, of Princeton, who was fied with Woodrow Malloy for the halfway leadership yesterday with 72, found rough going today and ended with a 79. Woodrow played steadily along for a 76. # Frank Thomas Lauds Louis' Short Punch

YANKEE STADIUM, NEW YORK, N. Y., June 25 .- Frank Thomas, Alabama's great football coach, saw the fight here tonight in which Joe Louis knocked out Primo Carnera in the sixth round.
"I never saw such a hard short punch," he said. "It doesn't travel far but how hard it lands."

From Carnera's dressing room came word from the big fellow. 'He hurts and hits harder than Max Baer," said Carnera, who Bill Duffy, Carnera's manager, said Carnera fought a poor fight, leading it to Louis. It was what Louis wanted.

By FRANK McMILLAN. NEW YORK, June 25.—(49)—Uncertainties today over the Washington tax developments combined with profit-taking after the recent rise in stocks to shake the market down smartly.

"Blue chlp" equities, particularly some of the higher placed members of the "century club," gave ground rapidly, with losses of fractions to 2 or idly, with losses of fractions to 2 or more points rather common. Rails held a little better on the whole than other groups while the Bears made most progress against the industrials.

The volume of transactions was about on a par with Monday's session, with turnover most rapid in the first half-hour, while stocks sold off sharply, and again toward the finish when a slight recovery was under way. Transactions aggregated 1,144,330 shares. The Associated Press average of 60 stocks declined .6 of a point at 44.3.

Leading commodities were not an important influence on security price movements, ranging narrowly during most of the day. There was a general disposition to await the actual text of the tax bill before rushing to either dull or bear conclusions, and much of the day's selling was said to have represented precautionary cash-

Payrolls Dip.

Official confirmation of the slight slump in business in May was seen in the publication of the Federal Reserve Board's index of activity at 85 against 86 in April Post activity at 85 against 86 in April. Pay rolls and emplo were likewise reported to have dipped

However, the figures were regarded by many Wall Streeters as "water over the dam." Encouragement was taken from the order of the Chesapeake & Ohio for \$11,819,000 of new lling stock, a very substantial bit of isiness by recent standards.

The usual scattering of preferred atocks found buyers at higher levels, and some equities moved a point or so upward against the trend, such as Celanese at 25 1-2, Ludlum Steel at 16 7-8, Industrial Rayon at 27 7-8 and American Spuff at 75.

NEW ORLEANS, June 25 .- (A)-An advance of 4 points in the July position, the last of the old crop months, while the rest of the market was losing from 1 to 2 points, featured dealings on the cotton market today.

The action of July was the result of the total absence of notices of delivery on first-notice day, today, Old traders said that such a situation had occurred rarely in the past 50 years, with no tenders put into the market either here or in New York.

While it was expected that the amount of notices would be small because of constant liquidation of this position during the past weeks, the total lack of notices came as a surtotal lack of notices came as a surtotal lack of notices. prise to the trading fraternity. Above Previous Close.

As a result the July position held above the previous close for the entire session, in sharp contrast to other first-notice days when the spot month usually declines, and carries the re-mainder of the market with it. Several reasons for the failure of

Several reasons for the failure of firms to issue tenders were advanced, but no two would agree on why this situation existed. The wide disparity between the spot and futures quotations, the announcement by the government that they would take all cotton offered under 12 cents and the depleted certificated stocks were the depleted certificated stocks were the reasons most widely advanced.

At the close today July sold at 11.49, while October at 11.19, December at 11.21 and January at 11.23 were off a point or two. Weather Favorable.

NEW YORK, June 25.—(P)—The corporate bond market was slightly upset today by the series of rapid developments in the government's new taxation program but losses were small and a steadier tone prevailed in late trading. United States governments also were unsettled.

In contrast to the extreme nervousness displayed by all types of corporate securities last week when the president first made known his tax objectives, today's decline was orderly and at no time was there any great pressure.

Pressure.

High-priced rail and utility bonds were sufficiently resistant during the final hour of trading to create a better all-round tone and the main body of bonds ended well up from the lows of the day. A handful of favorites jumped into the plus column just before the close with small gains over Tuesday's finals.

The close with small gains over Tuesday's finals.

The Associated Press averages were 2 of a point lower to .1 of a point higher. Transfers aggregated \$12.300.000, par value, compared with \$12.564.000 the day before.

Heaviest losers included Oits Steel 6s. off at 90 1-2; Richfield Oil 6s. off 1 at 33; Warner Brothers 6s, off 1 1-4 at 64 1-2; American & Foreign Power 5s, off 1 at 70, and International Telephone 4 1-2s, off 1 1-2 at 55. Others yielding less than 1-2 point included obligations of Delaware & Hudson, Nickel Plate, American & Melting, New England Telephone, Penn Dixie and Laclede Gas.

Several issues of Great Northern Railway bonds got into new high 1935 ground at one time during the late rally but slipped a notch under the peaks to end 1-4 to nearly a point higher. Others showing small net advances included American Water Works 6s at 88, Denver Gas 5s at 106 3-4, American Telephone 5s at 112 3-4, Santa Fe 4s at 110 3-8 and Illinois Steel 4 1-2s at 106 7-8.

Trading in United States government bondsd ropped below the average with several of the treasury issues completely absent from the tape all day. Closing prices ranged from 2-32da higher in the 3 1-4s of 1943 at 106.25 to 4-32ds lower in the 3s of 1946 at 103.20.

Foreign bonds were generally steady. Some improvement was shown by

Foreign bonds were generally steady. Some improvement was shown by most of the German loans as well as a number of the South and Central Americans that featured the division on Taesday.

# CAUSE FOR ALARM

Randy All at Once Knew the Futility of His Yearning; He Could Not Make Judy a Lifelong Invalid's Nurse.

He lay back in his wheel chair, his book lying forgotten on his knees. It was afternoon and he was expecting a visit from Judith. He speculated upon the turn the conversation would take; it always took the same turn. "But Randy," Judith would say, "won't you please keep trying to use your legs?" She never could under-your legs?" She never could under-your legs. "She never could under-would that one just couldn't will those stand that your last examination proved to him that if you tried to walk you could; that your legs are all right."

Baer he got up 11 times. This time he was up just three. He stood there, his mouth like a wound, and the ref-tried to walk you could; that your legs are all right."
